AGENDA

Welcome and Introductions

Review Relevant Comprehensive Review and Analysis (CRA) Data

Review Goal, Objectives, Outcomes, Related Contracts, and Staff and Council Work (in support of the Goal)

Discuss:

- Will the objectives as written lead to accomplishment of the goal?
- Will the objectives as written lead to achievement of the outcomes?
- Are the objectives as written responsive to the CRA data? If not, what is missing (or is not in alignment)?
- Will the current contracts be continued? If the current actions are implemented as planned (and the current contracts successful), will the objectives be achieved? If not, what is missing (or is not in alignment)?
- Is more focus needed? Do we need to establish priorities for action?
- How can we collaborate internally and with external partners to leverage resources and increase impact?
